

American Academy of Thermology

Exhibitor & Sponsorship Opportunities:

American Academy of Thermology (AAT)

Annual Scientific Session and Annual Meeting Followed by the AAT Annual Achievement Award Reception

The American Academy of Thermology (AAT) Annual Scientific Session and Annual Meeting will be held in accordance with the dates and locations as listed on the AAT Annual Scientific Session web site link. The AAT Annual Scientific Session and Meeting brings together healthcare professionals from many disciplines and from all over the United States to collaborate and learn. This meeting will address the evolving medical thermology practices and guidelines in medical infrared imaging delivery. The Scientific Sessions will be followed by the AAT Annual Achievement Reception. The AAT Annual Business Meeting will follow on the day after the Scientific Session.

As in previous years, AAT will be applying for AMA Physician Category 1 CME credit hours to be awarded by the South Carolina Medical Association. Each year the AAT Scientific Session has been awarded Category 1 CME credits however there can be no guarantee of this until such time as they are granted for any particular year. This activity will be planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint provider ship of the CME sponsoring entity and the American Academy of Thermology. The CME sponsoring entity will be accredited by the ACCME to provide continuing medical education for physicians.

Your company or organization can play a part in helping thermography professionals thrive and succeed. You will be able to showcase how your company's services and products can help clients and prospects embrace and leverage the changing thermography industry. The AAT Annual Meeting offers the perfect opportunity for your company or organization to reach clients and prospects who are coping with this ever expanding thermography environment. You will be able to contribute to the educational experience by sharing your knowledge and expertise with attendees and become part of the solutions thermography professionals are seeking for their challenges and needs.

Each year the Scientific Session conference topics include timely topics and are delivered by nationally recognized physicians, technicians, healthcare and scientific professional. Please refer to the AAT Annual Meeting Scientific Session web site link for this year's topics and speakers.

American Academy of Thermology: The Organization

The American Academy of Thermology is the premiere organization in North America for the scientific development, health care training and clinical application of [medical infrared imaging](#).

The American Academy of Thermology (AAT) was founded in 1971. The AAT is a multi-disciplinary organization that promotes education, research and the clinical application of medical infrared imaging. The AAT provides a forum for those who have interest in medically related conditions that involve the autonomic nervous, peripheral vascular and immuno-inflammatory systems. Relevant articles for publication may be submitted to the AAT for publication in its peer reviewed journal, Thermology International. Relevant continuing medical education credits are offered by the Academy.

The American Academy of Thermology holds annual conferences for the presentation of scientific and professional papers. In cooperation with the international Thermology community the American Academy of Thermology prepares and publishes peer reviewed guidelines for the use of medical infrared imaging. The American Academy of Thermology serves as the voice of its members in medical practice, health care finance, legislative and regulatory related matters.

The American Academy of Thermology offers different categories of membership. Interested individuals should either be licensed physicians, accomplished medical scientists with demonstrated interest in medical infrared imaging or technologists who desire training and education in Thermology. Members who meet the necessary prerequisites may obtain competency certification by successfully passing the Certification Program offered through the American Academy of Thermology.
