## THE DIFFERENT ATLAS USERS

### **AAT Members with current membership**

You do not need to create a user account on the Atlas. If you have a current, paid membership with AAT, you may log into the Atlas using your Member's Area login and password. Please log in on the login box in the right side menu area of the Atlas:

A screenshot of the Atlas login interface. It features a search bar at the top with the text "Search the Atlas" and a "Search" button. Below the search bar is a "Log in to Atlas" section with two input fields: "Username" and "Password". A "Login" button is located at the bottom of the login section.

If you have forgotten your AAT Member password, please go [here](#) for instructions.

### **AAT Members with expired membership**

If your membership with AAT has expired, you cannot submit to the Atlas, nor can you view the Abnormal Atlas. You may renew your membership [here](#). Once you have renewed your membership, you may log into the Atlas as detailed above.

### **Non-members**

If you wish to submit to the Atlas and you are not a member of AAT, you must register as a user on the Atlas. You may register [here](#).

## What parts of the Atlas are available to AAT Members and Non-Members?

- The public in general may view the Atlas of Normal Thermology.
- Only AAT Members and registered Atlas users may submit to the Atlas.
- Only AAT Members with a current, paid membership may view the Atlas of Abnormal Medical Thermology.

## REGISTERING FOR THE ATLAS

**IMPORTANT!** AAT Members with current, paid memberships need not register for the Atlas. You may use your regular AAT Member login and password to log into the Atlas. Please read more <[above](#)>.

### Registering

If you are not a paid member of AAT and you would like to submit to the Atlas, you must register as an Atlas user. You may do this [here](#).

You must fill out all fields with red stars, and accept the Terms & Conditions for using and submitting to the Atlas.

Registering for the Atlas does not let you view the Abnormal Atlas, nor does it give you access to AAT's Member Portal. Registering for the Atlas lets you:

- View the Normal Atlas which is open to the public
- Submit to both the Normal and Abnormal Atlas.

### Registration confirmation

Once you have registered, two things will happen:

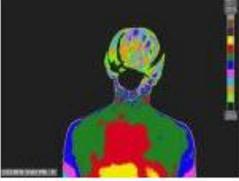

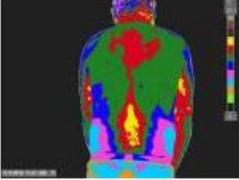

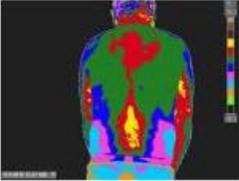

1. You will receive an email confirmation. Please retain the email for future reference. If you do not see the email within a few minutes, please check your spam folder.
2. You will be taken automatically to your Atlas Dashboard.

## YOUR ATLAS DASHBOARD

When you log in to the Atlas, you will be taken to your Atlas Entries Dashboard, see below sample screenshot:

### Your Atlas Entries

#### [User Profile] 's Dashboard

Featured Image	Title	Status	Options
	Upper Body	Live	
	Lower body	Live	
	Lumbar	Live	

If you have not submitted any Atlas Entries yet, you will not see any posts there until you do.

### Understanding your Dashboard

1. The thumbnail image is the image you set as the entry's main image
2. The title is the title you set for your entry
3. The Status is whether your entry is under review in which case it will say "Awaiting Approval", or approved in which case the entry will be published in the Atlas and say "Live".
4. You may click on the thumbnail image or the title to view your entry

## SUBMITTING TO THE NORMAL ATLAS

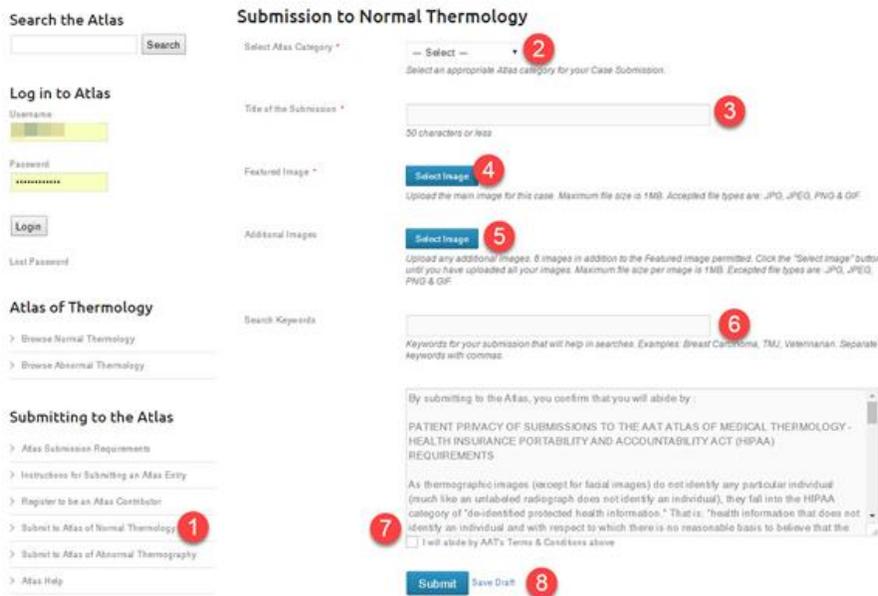

Please carefully read the [Atlas Submission Requirements](#) and the [Instructions for Submitting an Atlas Entry](#) before submitting an Atlas entry. It is important that you understand the rules and requirements to successfully have your entries accepted and published!

You must be registered and logged in to submit to the Atlas; see [above](#).

### Submitting to the Normal Atlas

1. Click on the link on the left side menu that says "Submit to Atlas of Normal Thermology".
2. In the dropdown, select the appropriate category.
3. Give your entry a title that is informative to other Atlas users.
4. Select your Featured Image. Follow the instructions for accepted file types. Your image will be sized appropriately for the Atlas so you can upload larger files. However, files that are too small (500 pixels wide and smaller) will not have much value for other Atlas users, so try to upload larger files.
5. You may upload up to 8 additional images, again following the requirements for file types, and with good file sizes. **IMPORTANT:** Upload additional images in the order you want them displayed. If you need to change the order after uploading your additional images, simply delete them and re-upload.
6. Enter keywords that will help other Atlas users search and find your entry.
7. Read the Terms & Conditions and check the box indicating that you will abide by said T&C's.
8. If you are satisfied with your Atlas entry, click the "Submit" button. If you want to finish your Atlas entry at a later time, you can click the "Save Draft" button.

The below screenshot indicates the steps above. The form itself contains important instructions such as max number of characters and more.

The screenshot shows the "Submission to Normal Thermology" form. On the left is a navigation menu with "Submit to Atlas of Normal Thermology" highlighted (1). The main form includes: a category dropdown (2), a title field (3), a featured image selection button (4), additional image selection buttons (5), a keywords field (6), a terms and conditions section with a checkbox (7), and "Submit" and "Save Draft" buttons (8).

## SUBMITTING TO THE ABNORMAL ATLAS

Please carefully read the [Atlas Submission Requirements](#) and the [Instructions for Submitting an Atlas Entry](#) before submitting an Atlas entry. It is important that you understand the rules and requirements to successfully have your entries accepted and published!

You must be registered and logged in to submit to the Atlas; see [above](#).

### Submit to the Abnormal Atlas

1. Click on the link on the left side menu that says "Submit to Atlas of Abnormal Thermology".
2. In the dropdown, select the appropriate category.
3. Give your entry a title that is informative to other Atlas users.
4. Select your Featured Image. Follow the instructions for accepted file types. Your image will be sized appropriately for the Atlas so you can upload larger files. However, files that are too small (500 pixels wide and smaller) will not have much value for other Atlas users, so try to upload larger files.
5. You may upload up to 8 additional images, again following the requirements for file types, and with good file sizes. **IMPORTANT:** Upload additional images in the order you want them displayed. If you need to change the order after uploading your additional images, simply delete them and re-upload.
6. If you have a video for your Atlas entry, you can upload it here. Your video must be of the file type mp4. To learn about converting a video to mp4, read our article [here](#).
7. Enter case details with a limit of 100 words or less
8. Upload any supporting documents for your entry. These documents must be in PDF format – no other format is accepted – so convert them PDF prior to uploading.
9. Enter keywords that will help other Atlas users search and find your entry.
10. Read the Terms & Conditions and check the box indicating that you will abide by said T&C's.
11. If you are satisfied with your Atlas entry, click the "Submit" button. If you want to finish your Atlas entry at later time, you can click the "Save Draft" button.

The below screenshot below indicates the steps above. The form itself contains important instructions such as max number of characters and more.

Submission to Abnormal Thermography

Select Atlas Category \* **2**  
 -- Select --  
Select an appropriate Atlas category for your Case Submission.

Title of the Submission \* **3**  
  
50 characters or less

Featured Image \* **4**  
  
Upload the main image for this case. Maximum file size is 1MB. Excepted file types are .JPG, .JPEG, .PNG & .GIF.

Additional Images **5**  
  
Upload any additional images. 8 images in addition to the Featured image permitted. Click the "Select Image" button until you have uploaded all your images. Maximum file size per image is 1MB. Excepted file types are .JPG, .JPEG, .PNG & .GIF.

Video **6**  
  
Accepted video file type only: MP4. See below for converting videos to MP4 format. Maximum file size is 20 MB. Please be patient when uploading a video! Do not refresh the page or otherwise click anything while uploading as this may terminate the upload process. Only an MP4 type video file will play. Any other uploaded video types will not play. Read our article here on how to convert other video formats to MP4.

Case Details \* **7**  

**B I U** **“** **—** **≡** **≡** **≡** **≡** **≡** **↶** **↷** **🔗** **🗑** **✕**

**7**

100 Words or Less

Supporting Documents **8**  
  
LAB reports, MRI/ PET Reports, etc. Must be converted to PDF prior to upload other file types will not be accepted

Search Keywords **9**  
  
Keywords for your submission that will help in searches. Examples: Breast Carcinoma, MRI, Veterinarian. Separate keywords with commas.

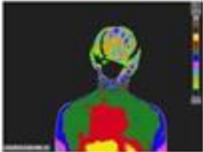

**10**  
 By submitting to the Atlas, you confirm that you will abide by:  
 PATIENT PRIVACY OF SUBMISSIONS TO THE AAT ATLAS OF MEDICAL THERMOLOGY - HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT (HIPAA) REQUIREMENTS  
 As thermographic images (except for facial images) do not identify any particular individual (much like an unlabeled radiograph does not identify an individual), they fall into the HIPAA category of "de-identified protected health information." That is: "health information that does not identify an individual and with respect to which there is no reasonable basis to believe that"  
 I will abide by AAT's Terms & Conditions above

**11**

## WORKING ON YOUR ATLAS ENTRY

**Save Draft:** If you saved your Atlas entry for completion at a later time, it will have the status of “Offline” until you click on the Submit button at the bottom of the form. You can access your entry and complete it later by clicking on the link on the left side menu that says “**Your Atlas Submittals**” and then clicking on the “Edit” option by the entry you wish to work on:

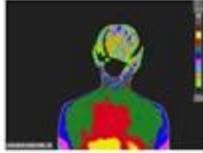

**Your Atlas Entries**  
[User]'s Dashboard

Featured Image	Title	Status	Options
	Arms	Offline	<a href="#">Edit</a>
	Upper Body	Live	<a href="#">Edit</a>

**Submit:** If you have finished your Atlas entry and clicked the “Submit” button, your entry will now go to the Atlas Editor who will approve or disapprove your entry. While under review, your Atlas entry will have the status of “Awaiting Approval”. While your Atlas entry is under review, you will not be able to edit it:

**Your Atlas Entries**  
[User]'s Dashboard

Featured Image	Title	Status	Options
	Arms	Awaiting Approval	
	Upper Body	Live	<a href="#">Edit</a>

### What happens next?

**Approved:** If your entry is approved, it will go live on the Atlas. You will see the green “Live” status on your Atlas Dashboard.

**Not Approved:** If your entry is disapproved, you will receive an email from the Atlas Editor with instructions on what needs to be corrected. The Atlas Editor will put your entry back into draft mode (see above) so you may make your corrections and resubmit.

## CONVERT VIDEO FILES TO MP4 FORMAT

MP4 is an HTML5 compatible video format that is supported by Chrome, Safari, Microsoft Edge, iPhone, iPad, Android and Flash.

In this tutorial, we use the freeware Handbrake <http://handbrake.fr/> to convert MP4 videos. Handbrake <http://handbrake.fr/> is an open source, GPL-licensed application for encoding MP4 video. It works on Windows, Linux and Mac.

### Step 1 – Download Handbrake

Go here <http://handbrake.fr/> and click the red button to download Handbrake. You will be prompted to save the program file. Save it somewhere easy to find, we suggest on your Desktop. Once downloaded, find the file which will end in .exe and click it to start the installation. Follow the installation steps.

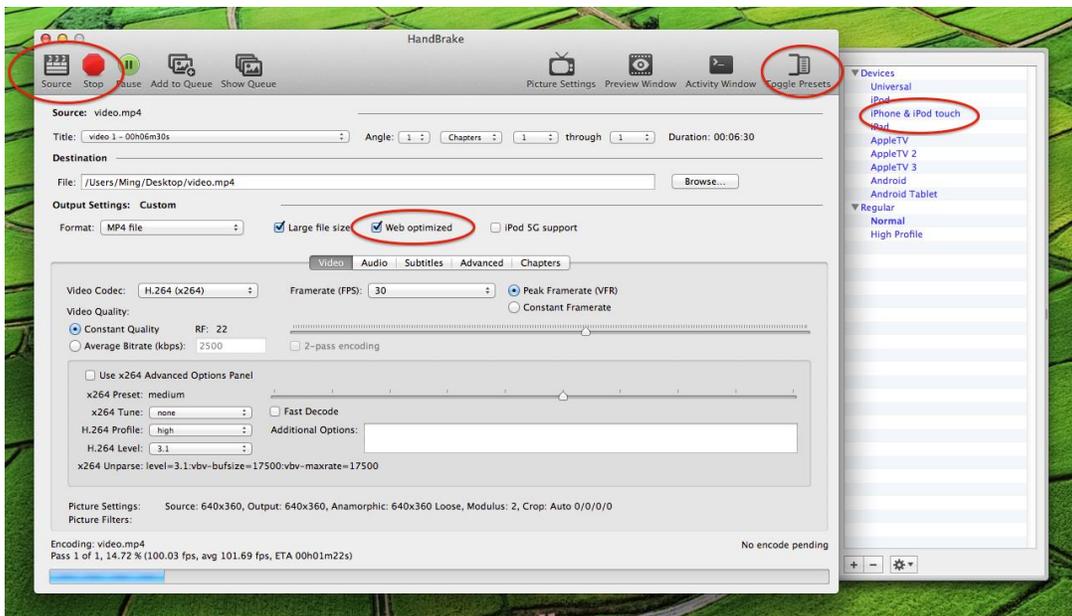

### Step 2 – Convert your video

HandBrake has a graphic interface which is straightforward and easy to use. In the main dialog, click the Source button and choose the video file you want to convert. On the right side, there is a list of Presets, you can choose the option “iPhone & iPad Touch”.

Make sure you also check the option “Web Optimized”. The option is also known as “Fast start” or “Progressive downloading”. It places the container header at the start of the file, and allows your video to start playing while it’s still downloading.

Click Start and wait for the encoding to complete.

More in-depth instructions can be found **here:** <https://trac.handbrake.fr/wiki/HandBrakeGuide>

## EDITING YOUR ATLAS PROFILE

**AAT Members:** You do not edit your profile from the Atlas section so you will not see this option. You edit your profile in the Members Area [here](#).

**Atlas Registered Users:** You must be logged in to edit your Atlas profile, log in [here](#).

Click on the link on the left side menu that says “Edit your Atlas Profile”:

### Search the Atlas

### Log out of Atlas

Welcome 

> Your Atlas Submittals

> Edit your Atlas Profile

> Logout

You will then be taken to your Atlas Profile page with the information you entered when you registered for the Atlas. You may change the information you entered when registering for the Atlas. Remember to click the blue “Update Profile” button when you are done. See below screenshot of the Atlas Profile.
